

COMMUNITY ANNOUNCEMENT

RAT INFESTATION IN THE HOPE VALE COMMUNITY

Hopevale Aboriginal Shire Council would like to advise that there is a rat infestation in the Hope Vale community.

Council staff will be going to each house in the community to **place rat traps**

Our team will be coming back to **monitor** the traps.

We kindly ask for your cooperation and **access** to your property so our staff can carry out this important work.

RAT FACTS:

- Rats can carry diseases.
- They contaminate food and damage property.
- They can get into homes through small gaps, roofs, walls, doors and under floors.
- They breed quickly.
- Rats can chew wiring, pipes and other important items.
