

I hereby certify that this map numbered HVASC-2 referred to as the Hope Vale Aboriginal Shire Sewerage Service Area was adopted for the purposes of sewerage charges at the budget meeting.

Mark Kelleher
Chief Executive Officer
/ /2020

The blocks coloured in blue are currently in the water service area and are able to be connected to the reticulated water scheme.

These blocks are charged according to Council's water policy. Each block in the area can have a connection point.

Connection points are situated in certain areas on these blocks and it will be up to the owners to install the plumbing lines to the connection point at their cost.
